

Oklahoma City Friday

Highly-anticipated OSSM prom is one of the best nights ever!

By Anusha Fathepure
 OSSM Student Columnist

As the school year came to a close, there was one big event that everyone on OSSM's campus was excitedly waiting for. Prom has always been this very big event in my head, but it felt extra special this year.

The whole school had this excited buzz around them in the

days leading up. Having missed prom last year seniors were thrilled to finally attend and for many juniors, like myself, this was their first prom.

Prom preparations actually began the day before. We were given Friday off and everyone was in high gear doing their nails and putting the final touches on their outfits. The first event of Saturday was picture taking on

campus before we boarded the buses to the Petroleum Club in downtown Oklahoma City.

Not only was it wonderful to be at the event place, but it was also super exhilarating because it was one of the first times our student body had left campus altogether for an event. The Petroleum Club was absolutely gorgeous with full glass walls that showed the

setting sun descent into night from all sides of Oklahoma City.

I honestly got a little emotional while we neared the end of dancing as the senior song played. I was hit with the realization that there were only a few weeks left of school. Soon my seniors would leave for college and I would only have a year before I was in their place. I made sure to make this night count

with all my friends.

After leaving the Petroleum Club, we headed back to campus where the student body quickly changed into our prom t-shirts and partied till 2 a.m. with rented inflatable obsta-

cle courses. I can still feel the rubber burns on my legs!

After a night of dinner, dancing, and fun, I can definitely say OSSM's prom was one of the best nights of my life.
